

Accelerated Developer Beginner 9.1

Contents

Overview	9
Objects of Interactive Development.....	11
Object Management Workbench	13
Understanding the OMW Form.....	14
Project Window	15
Center Column	16
News/Status & Search Window	18
Row and Form Exits.....	18
Understanding Objects	19
Understanding Tokens	21
Developing with OMW.....	21
Creating a Project.....	22
Steps to Create a Project	22
Default Project.....	24
Assign Users.....	25
Add a User to a Project	25
Remove a User from a Project.....	28
Adding Objects to a Project.....	29
Add an Object from Existing Objects	29
Add a New Object to a Project:	30
Move an Object from One Project to Another:	31
Remove an Object from a Project.....	31
Checkout.....	31
Checkout an Object:.....	31
Erase Checkout.....	32
Erase a Checkout of an Object:	32
Modify Object.....	33
Check-in.....	33
To Check-in an Object:	33
Advance a Project	34
To Advance a Project.....	34

Delete An Object.....	34
To Delete an Object	34
Delete A Project.....	35
To Delete a Project	35
Other Center Column Tasks	35
Get Object	35
Remove Object/User.....	36
Save/Restore	36
Save an object to save location	37
Design Button.....	38
Working with Tokens	38
View Token Status in the Project Window	38
View Token Queue.....	39
View Token in the News/Status Window	40
Manipulate Object Tokens	41
Release Token	42
Switch Tokens	42
Switch a Token From One Project to Another:	42
Searching.....	43
Logging	43
User Defined Codes (UDC).....	45
Overview.....	45
Create UDC	45
Create a UDC.....	45
Add Values to a UDC	47
UDC Validation.....	48
Data Dictionary	49
Overview	49
Item Specifications	50
Item Glossary.....	53
Data Item Glossaries.....	53
Default Values	54
Visual Assist	56
Edit Rules	57
Display Rules.....	59
Next Number.....	61

Using Existing Data Items	62
Finding Existing Items	62
Description Overrides (Jargon).....	63
Defining Description Overrides	63
Other Glossaries.....	65
Error Message Glossaries.....	65
Processing Option Glossaries.....	68
Understanding Table Design Aid	69
Overview.....	69
Create Table	70
Create a Table	70
Access the TDA Tools.....	71
Select Data Items	72
Select Data Items for the Table	72
View the Data Dictionary Properties of Columns in the Table.....	73
Create Index	75
Create an Index.....	75
Generate Table/Index.....	78
Generate a Table	78
Generate an Index	80
Table Triggers.....	81
Add or Modify Table Trigger Logic.....	81
Build a Table Trigger.....	83
Understanding Business View Design Aid.....	85
Overview.....	85
Create Business View	86
Create a Business View	86
Access the BVDA tools	87
Select Tables	89
Select a Table for the Business View	89
View the Data Dictionary Properties of Columns in the Business View ..	90
Select Columns.....	91
Select Data Items for the Business View	91
Joins/Unions	93
Business View Table Indices	97
Join Type.....	98

Simple Join.....	99
Left Outer Join.....	100
Right Outer Join	101
Unions	101
Distinct Mode	102
Understanding Form Design Aid (FDA).....	103
Overview.....	103
Create Application	104
Create an Application.....	104
Access the FDA Tools.....	104
Select Form Type	105
Components of a Form	105
Create a Form.....	106
Form Data Structure.....	108
Find/Browse	109
Headerless Detail.....	111
Header Detail	112
Fix Inspect.....	113
Search and Select.....	114
Power Form/Subforms	116
Form Information.....	118
Form Controls and Layout	119
Determine Form Size	120
Placing Business View and Data Dictionary Columns.....	122
Defining a Business View Column as a Filter	123
Tab Controls.....	125
Properties.....	126
Push Button Controls	128
Checkbox and Radio Button Controls.....	128
Combo Box Controls	129
Saved Query Controls.....	129
Group Boxes	130
Align Controls.....	130
Using Arrow Keys to Move and Size Controls	131
Tab Sequence.....	132
Text Variables	132

Menu Toolbar Exits	133
Media Objects.....	136
Media Object Data Structure.....	137
Enable Media Objects on a Form	138
Event Rules	142
ER Flow.....	142
Event Rules Design.....	148
Print Event Rules	167
Validate Event Rules.....	168
To Save and Validate ER.....	168
Understanding Asynchronous Processing.....	168
Error Handling	169
Visual Quality Checklist.....	170
Debug Interactive Application	171
Overview	171
Debug Interactive Applications	171
Understanding Processing Options.....	179
Overview.....	179
Create Processing Options.....	180
Select Data Items	183
Processing Option Description	187
Adding Help Text.....	190
Attach to an Application.....	191
Add Version to Application	192
Beginner Exercises Overview.....	199
Exercise Naming Standards	199
Object Management Workbench	201
Business Requirement	201
Objective.....	201
Exercise	201
Create an OMW Project.....	201
Users and Roles.....	202
Objects	202
Tokens	202
User Defined Codes	203
Business Requirement	203

Objective	203
Exercise	203
Add UDC Table Entries	203
Data Dictionary	205
Business Requirement	205
Objective	205
Exercise	205
Add Data Dictionary Items	205
Table Design Aid	207
Business Requirement	207
Objective	207
Exercise	207
Create and Generate Tables	207
Business View Design Aid	211
Business Requirement	211
Objective	211
Exercise	211
Create Business Views	211
Form Design Aid	213
Business Requirement	213
Objective	213
Exercise	213
Create Item Master Application (Instructor Led)	213
Create Item Branch Application	216
Create Search Select	219
Enhancing Item Branch Application (Instructor Led)	220
Enhancing Item Master Application	221
Add Table IO to Item Branch Application (Instructor Led)	222
Add Headerless Detail to Item Master Application (Instructor Led)	222
Add Headerless Detail to Item Branch Application	225
Processing Option Design Aid	227
Business Requirement	227
Objective	227
Exercise	227
Create Processing Option for Item Master (Instructor Led)	227
Create Processing Option for Item Branch	228

Beginners Class Case Study	229
Business Requirement	229
Objective	229
Exercise	229
Create Item Balances Table	229
Create Business Views	230
Create Item Balance Application.....	231
