Manufacturing II 9.1

Updated for 9.2 User Interface

Contents

Introduction 7

Product Definition 11

Item Information 11
Item Master Types 11
Item Numbering 14
Description 17
Stocking Types 17
GL Class 19
Cost Level/PO Price Level 21
Category Codes 22
Units of Measure 24
Non-Stock Item Masters 27

Item Branch Information 29
Stocking Type 30
Planner Number 31
Buyer Number 31
Supplier Number 33
Maximum/Minimum/Multiple Order Quantities 34

Item Costs 36
Cost Methods 37
Cost Elements 39

Cross Reference 40

Item Planning/Manufacturing Information 42
Accounting Cost Quantity 44
Shrink Factor/Method 44
Lead Time Level 45

Lab Exercise – Item Entry 46

Bills of Materials 46

Work Center Setup 51
Work Center Master 51
Work Center Rates 57

Item Routing 59

Work Order Overview 64
Work Order Release 65
Super Backflush Material and Labor 72
Work Order Item Completion to Stock 76

Lab Exercise – Product Definition 80

Streamlined Product Maintenance 81

Sample Product Setup 81
Interoperability 82
Creation of Additional Branch Plant Records 95

Item Maintenance 101
Interoperability 102
Item Master/Item Branch Fields Update 112
Global Category Codes Update 117

Bills of Materials 121
Grid Import 121
Copy to Other Branches 128

Item Routings 130
Manual Entry 130
Master Routings 130

Reduced Work Order Workload 139

Elimination of Material Issues 141
Cycle Count Component Consumption 141
Manual Issue of Components 150
BOM Issue of Components 151

Practical Scheduling Practices 154
Shortage Identification 154
Pre-Release Component Availability Check 162
Shortage Review and Notification 164

Streamline Pick Operations 167
Consolidate Pick Lists 167
Paperless Production Control 170
Add an Operation Step for Pick 171
Backflush Against Pick Operation 176

Move Components to Production Line 179
Change Item Primary Location 179
Work Center Commitments to Line Location 190
Supplier Scheduling Delivery Location 197

Line Stock Replenishment 201
Location Minimum Quantities 201
Kanban Location Replenishment 210

Optimize Operations Reporting 217
Blind Super Backflush at Interim Operations 218
Mistake Proofing Using Operation Quantity Validation 227
Backflush at Non-Pay Point Operations 230

Automating Work Order Close 236
Completions Program Close on Tolerance 236

The Demand-Driven Production 241

Coupling Work Orders to Sales Orders 241
Direct-Coupled Sales Order Entry 242

Work Order Processing 247
Work Order Completion 249
Pick Slip Print 253
Shipment Confirmation 255

Demand-Driven Material Planning 257
Sales Order-Driven Master Planning 257

Continuous MPS/MRP Plan Generation 265

Alternatives to Standard Work Order Processing 273

Kanban Production 273
Adding Line Locations 273
Kanban Master Information 276
Kanban Consumption 278
Kanban Supply 279

Batch Work Order Release 284
Message Creation 286
Message Release 291

Repetitive Manufacturing 292
System Setup 292
Repetitive Processing 301

Eliminating Work Orders 309

World's Rate Based Scheduling 309
System Setup 309
Item Set Up 311
Rate Schedule Processing 317
Manufacturing Accounting 331
Conclusion 332

Saleable Kits 333

Eliminating Bill of Material Levels 340

Completion of Multiple Items from Same Order 350
Work Order Entry 351
Co-Products / By-Products 357
Availability Inquiry 358
Reporting Completions 358

By-Products Within Discrete Processes 364

Unplanned Item Completions 369

Conclusion 373

Lean Concepts in Procurement 375

Procurement Processing Overview 375
Supplier Setup 375
Item Setup 380
Receipt Processing 406
Match Invoices to Receipts 412
