In the market for a
consultant? Look no
further than JDEtips.
Our consultants are the same
experts who lead our training
classes. They'll share their
knowledge with your team
while assessing your business
needs and providing you with
the solutions you need. [Email](#)

Big JDE Announcements at Collaborate 11

Ahoy mateys! If you made it to Collaborate 11 and happened to stop by the JDEtips booth, you would understand my greeting this issue. If your April travels took you to places different than the Orange County Convention Center, you can still join the fun. Click [here](#) to see our JDEtips Collaborate brochure and enter our Word Search contest for a chance to win a \$200 gift certificate. But you'll have to act fast! Entries must be in by Saturday, April 30.

*Looking for more JDE knowledge gems? Our new "webucation" series is live: **just for JDEtips Journal subscribers**. If you weren't at Collaborate, you can still hear a live webcast reprise of our educational sessions on Hidden Gems in Financials & Distribution, and ERW. Learn more about key JDE topics, including EDI, Distribution, and Knowledge Transfer as we roll out our monthly free subscriber-only webcasts. Click [here](#) for the schedule.*

Don't forget to check out the bounty featured in this issue of JDEtips Journal.

E1 Cross Functional: Enforcing Hierarchical Category Codes, by Mike Wright
Talk about taking a hidden gem and turning it into a treasure. What started off as question turned into what we believe might become a JDEtips classic. This article features an explanation of the concept and source code for enforcing Hierarchical Category Codes.

E1 Technical: Enabling MS Visual C++ IntelliSense when Working with JDE Business Functions, by Brian Oster
Add some Intellisense to your JDE BSFNs. This article details what it is, how to configure it in JDE and how to use it when working with business functions. Loaded with best practices and tips to help you maximize your use of this tool.

E1 Technical / CNC: EnterpriseOne 9.0 Standalone Demo Install as of February 2011, by Tim Ene
A "cheat sheet" update to replace the original E1 9.0 standalone demo installation instructions we published back in 2008.

E1 Technical / Customizing EnterpriseOne: Complex Data Selection

Be sure to get even more value out of your JDE system with our [recommended software partners](#), carefully assessed by the JDEtips team.

Connect with us:

Using C BSFN, by Rick Cai

Performing complex criteria data selection via UBE or Normal Event Rule code can be clumsy and lagging in performance. This article shows you how to use BSFNs to increase performance.

E1W [UPK: Beyond the Basics](#), by Sue Maiwald

Cue the lights, sound, and banners! UPK is an effective tool with which to develop JDE end user training. The author provides half a dozen of her favorite UPK tips to make your training material even more user friendly, possibly even more exciting.

E1W [Distribution / Inventory: JDEtips Training Manual Distribution](#)

Sample: Serial Numbers, by Jane Perry

Here's a sample chapter excerpt from our new JD Edwards 9.0 Inventory Management training manual. Learn more about JDEtips Training Manuals and how to purchase them [here](#).

...Continued from Colleen's message...

While you're visiting the JDEtips website, check out [Andy's avatar](#) as he tells you about the services we offer JD Edwards clients.

It isn't too late to attend [JDEtips University spring session](#). Check out the schedule to your left for more detail.

Until next time...

Colleen Low Larkin

JDEtips Managing Editor
