Spring is here and everything looks fresh--including JDEtips Journal's new look and feel. Starting with this issue, we've changed from our formatted journal to easier-to-read, individual articles. Our statistics show that most subscribers download individual articles when they need them more often than they download the actual issue. So going forward, you will receive an email similar to this one, with a table of contents, and you can go to our Document Library and download the articles of your choice. ([read more...](#))

E1Financials / Fixed Assets: Interoperability Lite: Importing Fixed Assets from Excel, by Betty Townsend and Susan Stooksberry.

Lighten up your Fixed Assets import process in EnterpriseOne without full-blown interoperability. We've even thrown in an Excel template to help you get started!

E1WDistribution / Procurement: Non-Inventory Procurement, by Serge Houde.

This article provides soup to nuts instructions on how to manage your non-inventory procurement process. From requisition through budget management. It's all here.

E1Distribution / Sales Order Management: Power Forms for CSRs: Sales Order Entry P42101, by Russ Bartunek.

Make a CSR smile; Russ demonstrates streamlined processing for sales orders, using P42101, taking advantage of the 8.12 Power Forms technology.

E1Reports, Query, and Business Intelligence: Financial Report Writing: The Limitations, Gotchas, and Workarounds!, by Penny Allen.

Financial Report Writing stresses: be gone! Learn to navigate the waters of row specs, level break objects, templates, zero row suppression, and more.

E1Technical / CNC: Oracle Single Sign-On for JD Edwards EnterpriseOne: Part III, Enabling Oracle Single Sign-On with JAS Server, by Charles Anderson.

Parts I and II of this series laid the groundwork for Oracle Single Sign-On. Charles shows you how to flip the switch to ON.

E1Technical / Customizing E1: An Introduction to Power Forms Development, by Scott Beebe.

What you don't know can cost you time when it comes to creating Power Forms. Learn the details the vendor manuals leave out.

WTechnical / World: WorldWriter Searches with SQL, by Rick Snell.

Faster searches for WorldWriter reports are just an SQL away. This article contains a variety of tips and SQL statements to help you sift through your myriad WWs.

E1WCIO Corner: Issues in Technology Leadership, Part 2: Making Decisions,

by CJ Rhoads.

What's your IT decision making process like? If it involves a lot of guess work, try CJ's tips for making more informed decisions when it comes to technology (or anything else).

*If you do want to download all the articles at once, we also have a zip file in the ****Current Issue**** category that contains all the new content.*

Collaborate 2009 wrapped up last week, and we want to hear from you! Did you attend? What did you think? What presentations made the greatest impression on you? Whatever is on your mind, shoot me a line! I'd love to hear from you--who knows, your ideas and thoughts may become fodder for a future JDEtips article!

Speaking of great reads--make sure you check out Andy's "On and Off the JDE Trail" blog at <http://it.toolbox.com/blogs/jdedwards>. Andy's insights never fail to put a smile on my face (and I'd say that, even if he wasn't our publisher!)

Until next time...
