

# Table of Contents

## From Our Publisher

### **3** **JDEtips: The First Two Decades,** by Andy Klee

**E1 W** It started as a four-page news letter that over the last ten years has steadily grown to be the go-to resource for advanced JDE® knowledge. Learn how JDEtips began and how it will continue to grow during our second decade.

## On Financials/ Budgeting

### **7** **Creating Depreciation Projections,** by Bob DeMartino

**E1 W** If you're creating long-term project budgets, you can't forget about the depreciation factor. Get the details on how to calculate those projections with a program found in JDE (R12865). This article details the process.

## On Financials/ Accounts Receivable

### **14** **Accounts Receivable Deduction Management,** by Susan Stooksberry

**E1** As short pays become a reality for more and more companies, it's time to discover the robust functionality in Accounts Receivable Deduction Management. This tip provides the when, where, and why you'll want to put this solution to work.

## On Technical/ Customizing EnterpriseOne

### **37** **EnterpriseOne Auto Job Submitter,** by Mike Wright

**E1** One job, run multiple times, but you have to submit each run separately in Job Scheduler? Not any more! Discover an automatic solution that will save you time and effort. Code included, naturally.

## Love Letters

### **44** **Love Letters: The Evolution of JD Edwards (and JDEtips),** by Our Contributors

**E1 W** Back in the day, "love letters" were letters sent by clients complimenting JDE employees. We asked some of our long time contributors to share their thoughts on how JD Edwards® as a product and company has evolved over the last ten years, as well as how JDEtips has impacted the JD Edwards community in their eyes. In other words, a love letter.
