■ HR / Payroll

Troubleshooting Payroll Journals, by Thomas Nellissery

An error in your Payroll journals can have a chain reaction effect, straight to the GL, if it's not nipped in the bud quickly. Here are some tips to help you troubleshoot and correct these errors before they continue to pay it forward.

■ Distribution / Procurement

Procurement AAI's — Or, "Where did that error come from?", by Russ Bartunek

Don't you just love "mystery errors" in your Procurement transactions? Neither do we. But there's help to be found in understanding the different AAI's involved; this article details which ones to learn and watch.

■ Technical / Customizing EnterpriseOne

Text Search Tips, by Venkat Ramanan

Text Search functionality can vastly improve the time and effort spent on searching for specific data in your EnterpriseOne applications. Here's how it works and how you can apply it.

■ Technical / Customizing EnterpriseOne

EnterpriseOne Time is of the Essence, by Mike Wright

We know there are only 24 hours in a day. But our JDE system doesn't always understand that. This tip offers a business function to help your system overcome date/time issues when late night jobs roll into the next day.

Enlightening News:

Our [JDEtips Training Manuals](#) are still the hottest ticket in town when it comes JDE reference books. Now through July 31, 2012, pick up your copies for 20% off the cover price.

Our summer/fall session of [JDEtips University](#) is about to kick off. Register now as many of our Spring sessions filled up quickly. We're offering classes onsite at our Longmont, Colorado, training facility or virtually through our half day schedule.

Do you have an interesting solution or advanced knowledge you'd like to share? We pay \$1000 for each published JDEtips Journal article. If you're interested in writing for us and would like to see our list of topics needed—or if you already have a great topic idea—please drop me a line; I'd love to hear from you.

Until next time. . .
