Be sure to get even more out of your JDE

**A Message from Colleen Low
Larkin, Managing Editor.**

Be sure to check out [Andy's Blog](#)

For our September/October issue of JDEtips, we've got another lineup of great tips for you to download; either individually or all together in a zip file. This summer (or winter for our south of the Equator fans), we conducted our first ever JDEtips Training Survey. Nearly 200 participants answered questions and shared their insights on what they're looking for in JD Edwards training. The results may surprise you. Click [here](#) to see the results. ([read more...](#))

Table of Contents for the September/October 2009 Issue of JDEtips Journal

Click [here](#) to go directly to the JDEtips Document Library and the Current Issue category.

E1 Distribution / Sales Order Management: Customer-Centric Lot Processing Via Advanced Preference Lot 23: Advanced Lots, Ship Ascending, by Susan Stooksberry.

If you have customers with very stringent requirements regarding shipments and expiration dates, things are looking up. See how Lot Processing and Advanced Preferences can be combined to become a powerful ally when it comes to getting those requirements right.

E1 W Distribution / Sales Order Management: Cycle Billing 101, by Russ Bartunek.

Thinking about implementing Cycle Billing? Avoid Psycho Billing by reading this primer to get the most out of this functionality, along with how to avoid all the surprises that lurk in the dark corners of its setup.

E1 Distribution / Procurement: The PO Generator in JD Edwards: An Overview, by Brian Gilbert.

A tip whose time has come. Take advantage of this JDE tool to streamline your purchases and maximize your purchasing power. This article provides an overview, including setup.

E1 HR / Payroll: Time Card Automation, Part II: Advanced Overtime Rules, by Marta DiDomenico.

Sometimes, overtime pay agreements can lead to complex payroll needs. This second part of a two part series on time card automation takes a look at how to set up automated overtime rules when the calculations and formulas are more complicated.

E1 W Manufacturing: Work Order Backflushing Basics, by Pat Martino.

Don't let the name fool you; you won't need to call the plumber to implement this tip. But, the idea nonetheless has the same effect with this method reducing on-hand quantities against a work order automatically.

system with our [recommended software partners](#), carefully assessed by the JDEtips team.

E1 Reporting, Query, and Business Intelligence: Enterprise Report Writing: Subtotaling Within the Tabular Section, by Penny Allen.

A classic situation in which “thinking JDE” can save you considerable time and effort. If your reporting needs include adding subtotals to a tabular section, this tip will help you understand what steps to take to achieve the best report output.

E1 Technical / CNC: Scheduler and Submitted Job Reports, by Mike Wright.

Monitor jobs in EnterpriseOne based on criteria that are meaningful to your business, without spending hours customizing code. This article details the steps to completing this task.

...Continued from Colleen's message...

Meanwhile, we've posted our training schedule for the fall at www.JDEtips.com/WorkshopSchedule.asp. We hope to see you there, but remember: if you can't make it, we can always come to your place. We'll even pick up the instructor's travel expenses. (Visit our web site for details and the obligatory restrictions, or just drop an email to [Sandy Acker](mailto:Sandy.Acker)).

One item you probably haven't heard much about for a few years is JDE Certification. That other ERP solution provider (OK, we're talking about SAP) has kicked their certification into high gear, but what's up with JD Edwards? Well, you know that just got the investigative reporter in Andy all riled up; he went out and got down to the bottom of things. So, if you've been wondering about whatever happened JDE Certification, be sure to read all about it in Andy's blog: <http://it.toolbox.com/blogs/jdedwards>.

Now, back to JDEtips Journal for a second. As you know, we're always on the lookout for good tips. Do you have a best practice or a unique workaround that you've tried and it's worked for you? Or do you have an idea for a great topic that we haven't covered? Either way, we love to hear from our readers! Please drop me a line.

Until next time...

Colleen Low Larkin
JDEtips Managing Editor
