

<p>Cross Functional <i>Jennifer Linton</i></p>	<p>New to JD Edwards EnterpriseOne? Here's What You Need to Know to Get Started!</p> <p>What a great introduction to E1! Understand everything from System Codes, menu layout and navigation, to very cool and helpful user interface tips and techniques. Understand the power of both batch and interactive versions, including processing options and even Master Business Functions.</p>	<p>5</p>			
<p>Financials <i>Sarah Gavin</i></p>	<p>Understanding Allocations Part 3: Advanced Variable Numerator Allocations</p> <p>In this final of a three-part series, read all about setting up the more complicated Advanced Variable Numerator allocations including those very clever business unit overrides for the various basis ratios.</p>	<p>35</p>			
<p>Financials/Fixed Assets <i>Beth Outtrim</i></p>	<p>Finance and Fixed Assets Tips & Techniques for Reconciliation Issues</p> <p>Every year-end requires financial reconciliations of varying degrees, and we love to share new and unique solutions that are available with the increased usability of JD Edwards. Think outside of the proverbial box and you might even consider using Orchestrator to enter and reconcile large amounts of data.</p>	<p>56</p>			
<p>Manufacturing/ Forecasting and Planning <i>Keith Figgins</i></p>	<p>EnterpriseOne Planning Console New Functionality for Manufacturing Planners</p> <p>We love new functionality! The newest enhancements to the Planning Console vastly improve the ability to control MRP messaging and information such as critical component capability and 'what if' capabilities. Utilize these new features to provide more streamlined planning processes.</p>	<p>62</p>			
<p>Technical/User Defined Objects <i>Cindy Grim</i></p>	<p>User Defined Objects Administration & Security Overview</p> <p>Managing UDOs is such a hot topic these days, we just couldn't resist an opportunity to have Cindy help us understand the details. Learn about the multiple types of security that apply to UDOs and how to administer these objects.</p>	<p>93</p>
