## Make Purging Your Address Book Fun Again

6

### *Using Purge-It to Save Time*

Purging the Address Book is complicated, but it doesn't have to be painful. Jeanne Robbins outlines a repeatable, audit-ready process for identifying purge candidates, using standard tools and Purge-It, reviewing results in proof mode, and getting departmental sign-off, all while protecting data integrity and easing recovery.

Distribution /  
Procurement  
*Tim Scott*

## Know Your DMAAIs

15

### *The Procurement Ones*

Take the mystery out of procurement DMAAIs. Tim Scott updates two earlier Knowledge Express articles to cover all the stock and non-stock purchasing DMAAIs, explaining how each look-up table finds its account. You'll also pick up practical tips for making DMAAIs easier to maintain, plus pitfalls to watch out for.

Customizing  
E1  
*Lisa Tran*

## Retrofitting to Eliminate Customization

29

### *A Mushroom Grower's Journey to a Cleaner, More Maintainable JDE*

Lisa Tran of Monterey Mushrooms shares how she eliminated nearly 95% of her customizations during an upgrade using Logic Extensions and Form Extensions. Includes a deep dive into retrofitting the complex P31114 program, with an honest look at what worked, what didn't, and a practical roadmap for your own upgrade.

Technical /  
Orchestrator  
*Cindy Grim*

## Creating Data Tables with Orchestrator

62

### *Display Your Array Data in Table Messages*

Learn how to display array data in a clean, readable table inside a message body using the Data Tables feature in Tools 9.2.8.3. Cindy Grim walks through building the data request, form request, and orchestration to create an easy-to-read audit trail of mass-update results, complete with before-and-after values.
