

# Manufacturing Accounting - Work Orders and Variances Workshop

## Contents

|  |           |
|--|-----------|
| <b>Introduction</b>  | <b>3</b>  |
| <b>Manufacturing Accounting – Understanding Work Order Variances</b>                     | <b>5</b>  |
| <b>Product Costing and Manufacturing Accounting General Process Flow</b>                 | <b>5</b>  |
| <b>Descriptions of Major Activities for Product Costing and Manufacturing Accounting</b> | <b>7</b>  |
| 1) Rolling/Freezing Costs  | 7         |
| 2) Releasing Work Orders   | 7         |
| 3) Recording Work Order Activity   | 7         |
| 4) Accounting for Work Order Activity  | 7         |
| 5) Analyzing Variances   | 7         |
| 6) Making Corrections  | 7         |
| 7) Accounting for Variances  | 7         |
| <b>Sample Data</b>   | <b>8</b>  |
| <b>Manufacturing Accounting Variance Steps</b>   | <b>12</b> |
| <b>Manufacturing Accounting Variance Setup</b>   | <b>13</b> |
| <b>Step 1 – Review Finished Good Item Information</b>                                    | <b>13</b> |
| Accounting Cost Quantity   | 19        |
| Item Cost Ledger Information   | 20        |
| <b>Step 2 – Review Bills of Material</b>   | <b>22</b> |
| <b>Step 3 – Review Routings</b>  | <b>24</b> |
| <b>Step 4 – Review Work Centers</b>  | <b>27</b> |
| <b>Step 5 – Review JD Edwards Cost Components</b>  | <b>32</b> |
| <b>Step 6 – Review/Edit JD Edwards Cost Methods</b>                                      | <b>36</b> |
| <b>Step 7 – Review Purchase Item Costs</b>   | <b>39</b> |
| <b>Manufacturing Accounting Variances</b>  | <b>43</b> |
| <b>Step 8 – Understanding the General Accounting Flow</b>                                | <b>43</b> |
| Financial Statement Overview   | 43        |
| <b>Step 9 – Understanding the Manufacturing Accounting Information Flow</b>              | <b>44</b> |
| How will the system handle the accounting flow as part of Manufacturing Accounting?      | 44        |
| <b>Step 10 – Understanding Work Order Statuses</b>                                       | <b>46</b> |
| Review Standard Work Order Statuses Used in Demo Data                                    | 46        |
| <b>Step 11 – Accounting For Work Order Activities</b>                                    | <b>47</b> |
| Review Document Types for Activity Entries   | 47        |

|   |            |
|---|------------|
| Document Types for Activity Entries _____   | 47         |
| <b>Step 12 – Manufacturing Accounting AAls For Work Order Activities _____</b>                    | <b>48</b>  |
| Manufacturing Accounting AAls (Automatic Accounting Instructions) for Work Order Activities _____ | 48         |
| <b>Step 13 – Accounting for Work Order Variances _____</b>  | <b>56</b>  |
| Accounting for Several Types of Work Order Variances _____  | 56         |
| Types of Variances _____  | 56         |
| <b>Step 14 – Create Work Orders _____</b>   | <b>62</b>  |
| Creating a Work Order Header _____  | 62         |
| Review of Standard and Current Costs _____  | 66         |
| <b>Step 15 – Report Completions and Material &amp; Labor Usage _____</b>                          | <b>76</b>  |
| Review of Planned and Actual Costs _____  | 76         |
| <b>Step 16 – Create/Review General Ledger Journal Entries for Work Order Activities _____</b>     | <b>85</b>  |
| Process Work Order Activity _____   | 85         |
| Work Order Completion Costs _____   | 96         |
| Journal Entry Review _____  | 97         |
| <b>Step 17 – Create/Review General Ledger Journal Entries for Variances _____</b>                 | <b>101</b> |
| Review Work Order Variances _____   | 101        |
| Create Journal Entries for Variances _____  | 106        |
| <b>Step 18 – Working With Component Scrap and Shrinkage _____</b>                                 | <b>119</b> |
| Adding Component Scrap and Shrinkage to a Manufactured Item _____                                 | 119        |
| <b>Step 19 – Create Repeatable Process for Analyzing Work Order Variances _____</b>               | <b>127</b> |
| Creating a Repeatable Process _____   | 127        |
| Step A – Create a Work Order _____  | 127        |
| Step B – Attach Parts List & Routing _____  | 130        |
| Step C – Perform Super Backflush _____  | 132        |
| Step D – Issue Component Scrap _____  | 138        |
| Step E – Turn Work Order Over to Finance _____  | 140        |
| Step F – Work Order Completion Final _____  | 143        |
| Step G – Record Variance Proof _____  | 145        |
| Step H – Record Variance Final _____  | 148        |
| Step I – G/L Review by Work Order _____   | 151        |
| Step J – Production Cost Inquiry _____  | 156        |
| <b>Step 20 – Enter, Report, and Analyze Work Orders for Different Variances _____</b>             | <b>158</b> |
